

## **Extra Credit Project**

Extra Credit Possibility: Up to 30 points for doing a good job! Go to the Griffith Observatory and take a digital camera along with a note book. Admission is FREE, unless you want to do the planetarium show. Take pictures of at least 5 displays, shows, or other learning events that you attend with you in the picture. Write up a description of what you learned at each display and place the image of the display next to the description. All students who do this extra credit must tell me about the Foucault Pendulum at the entrance to the observatory. Observe it and tell me what it tells you about the rotation of the Earth! The Foucault Pendulum does NOT count as one of your 5 required exhibits. **This extra credit opportunity will be in effect until May 17, 2016.**
