

Griffith Observatory

Go to the Griffith Observatory and take a digital camera along with a note book. Admission is FREE, unless you want to do the planetarium show. Take pictures of at least 6 displays, shows, or other learning events that you attend with you in the picture. Write up a description of what you learned at each display and place the image of the display next to the description. **The Foucault Pendulum at the entrance to the observatory is required for all students.** Observe it and tell me what it tells you about the rotation of the Earth! For the other 5 write ups, you may pick whatever displays, shows, or events you want.
