

Jet Propulsion Lab

Go to JPL and take a digital camera along with a note book. The JPL Open House is May 18-19. Tickets are free but limited, so reserve well ahead of time (click [here](#)). Take pictures of at least 6 displays, shows, or other learning events that you attend with you in the picture. Write up a description of what you learned at each display and place the image of the display next to the description. **The twin of the Curiosity Rover at the Mars Yard is required for all students.** Observe it and tell me about the research the real rover is doing on Mars. For the other 5 write ups, you may pick whatever displays, shows, or events you want.
