

California Science Center

Go to the California Science Center and take a digital camera along with a note book. Entrance is FREE, except for IMAX or special exhibits. Take pictures of at least 6 displays, shows, or other learning events that you attend with you in the picture. Write up a description of what you learned at each display and place the image of the display next to the description. **All students who do this project must tell me about the Space Shuttle Endeavour** (costs \$3 to view. Make a reservation ahead of time). Check it out and tell about the missions it was a part of. For the other 5 write ups, you may pick whatever displays, shows, or events you want.
